Themed:

Flash Floods and Sediment Management
in Wadi Systems in the context of Climate
Change

Tlemcen, Algeria, 5-7 June 2023

Our Partners

PRESENTATION

Since 2015, the International Symposium on Flash Floods in Wadi Systems (ISFF) series has continuously provided valuable guidance and scientific content not only for academics, researchers, and students but also for decision-makers in Africa and the MENA region and worldwide.

The wadi system is an integral part of Africa's hydrological and environmental setting, especially in the north part, which experiences climatic changes with significant consequences for the stream-flows. This region is increasingly facing aridity problems and water scarcity promoting high erosion and sediment transport.

There is an obvious need for understanding the climate change impacts that are taking place in wadi systems. The symposium will focus on the effects of climatic change on water resources and addresses the environmental, social, and economic impacts of erosion, sediment transport, and sedimentation processes for managing and mitigating these impacts.

Hosted by the Pan-African University, Institute for Water and Energy Sciences (including Climate change), and EOLE Laboratory, University of Tlemcen, Algeria, the 7th edition of the International Symposium on Flash Floods in Wadi Systems (ISFF) is an international conference on all aspects of Wadi Systems in Africa and the MENA region in the context of Climate Change. It aims to provide a forum for the exchange and highlight different scientific research disciplines related to wadi flash floods and sediment management in the context of climate change.

The scientific part of the ISFF-2023 will include plenary sessions of keynote speakers' presentations and parallel sessions in which invited papers, and

public documents will be presented in oral form. There will also be poster presentation sessions. All the articles submitted will go through a review process caring for quality. Accepted papers of the registered authors will be published in the ISFF-2023 proceedings. Upon the symposium closer, high-quality papers will be considered, in extended form, for publication in our special issues of a renowned international journal.

The social part of the ISFF-2023 will include a welcome session and a tour to major touristic sites in Tlemcen. During the symposium, awards such as best paper will also be given to acknowledge the high quality of work of the participants.

THEMES

1. Water resources management and climate change
2. Hydrometeorology of extremes events
3. Flood Modelling and Forecasting
4. Data Challenges: Monitoring, Analysis, and Sharing.
5. Sediment Yield and Reservoir Sedimentation
6. Surface Runoff and Groundwater Management
7. Flash Flood Mitigation Measures and Warning Systems: From Engineering to Policy
8. Flash Flood and Climate Change: Social and Environmental Aspects

COMMITTEES

Honorific Chair: Prof. Mourad MEGHACHOU, Rector,
University of Tlemcen Algeria

Chair: Prof. Abdellatif ZERGA, PAUWES Director,
Algeria

Co-chair: Prof Tetsuya SUMI, Kyoto University, Japan

Organizing committee

Chérifa Abdelbaki	PAUWES/ University of Tlemcen
Abdellah Benyoucef	PAUWES/ University of Tlemcen
Mohamed Mohammedi	PAUWES/ University of Tlemcen
Khadidja Bousmaha	PAUWES/ University of Tlemcen
Amazigh Dib	PAUWES/ University of Tlemcen
Fouad Hadj Amara	PAUWES
Samir Brairi	PAUWES
Asma Chebieb	PAUWES
Sameh Kantoush	Kyoto University
Mohamed Saber	Kyoto University
Chewki Ziani Cherif	University of Tlemcen
Madani Bessedik	University of Tlemcen
Erick Tambo	United Nations University
Tayeb Boulemaiz	University of Ghardaia
Halima Belarbi	CU Maghnia

International scientific committee

Prof. Tetsuya Sumi	Kyoto University, Japan
Prof. Sameh Kantoush	Kyoto University, Japan
Prof. Abdeslam Megnounif	University of Tlemcen, Algeria
Prof. Habib Abida	University of Sfax Tunisia
Prof. Ashraf Elmoustafa	Ain Shames University, Egypt
Prof Thameur Chaibi	INGREF, Tunisia
Prof. Mihoubi Mustapha Kamel	ENSH, Algeria
Prof. Hasbaia Mahmoud	University of M'sila, Algeria
Prof. Amos Kabo Bah	University of Energy and Natural Resources, Ghana
Prof. John Gathenya	Jomo Kenyatta University, Kenya
Prof. Abderahmane Ghenim	University of Tlemcen, Algeria
Prof. Asefa Tirasew	University of Florida, USA
Prof. Bouchelkia Hamid	University of Tlemcen
Prof. Bouanani Abderrezak	University of Tlemcen
Prof. Abdelouhab Lefkir	ENTP, Algeria

Dr. Mohamed Saber
Prof. Ali Al-Maktoomi

Dr. Yves Trambly
Dr. Marwan Alraggad
Dr. Chérifa Abdelbaki

Dr. Hamouda Boutaghane
Dr. Bouchrit Rouissat
Dr. Ahmed Hadidi

Dr. Madani Bessedik

Dr. Abdelhadi Ammari
Dr Navneet Kumar

Important dates

Registration & Submission Deadlines

Authors are requested to submit abstracts
electronically in PDF format to the link :

<https://easychair.org/conferences/?conf=7thisff>

Submission of abstracts	November 15, 2022
Abstract Acceptance Notification	December 31, 2022
Registration	March 15, 2023

Full Papers and Proceedings

Full papers will be submitted for consideration to the
Scientific Committee by March, 2023.

All accepted and presented papers (both oral and
posters) will be published in a Conference
Proceedings

Publications

After the symposium, the scientific committee will
select high-quality papers to be published in
renowned international journals.

Registration

Registration is required for all participants to ISFF
2023. Registration fees include conference sessions,
conference proceedings, lunches, coffee breaks, and
excursions.
